

## NERC Standards Training

### Applying NERC Standards Series (18 NERC CE Hours/ 18 NERC Standard Hours)

This course is a great value to those who need to relate the NERC information that once resided in Policies to the NERC Standards today. This is not only important to know where that information resides in the Standards, but also any additions or changes that have been made in operating requirements.

The contents include summaries as well as links and associated reading requirements for the NERC Standards.
